

What did you like best about this class?

- What I liked best about this class was that I was able to understand the math better.
- This class will help me pass the compass test.
- The thing I like about this class is how the instructor prepare us for our exam that we had to take.
- This class is useful and provided me with knowledge both new and old.
- Prof. Michael teach me a lot. He focused on everyone as a person.
- The steps in front of the workbook is helpful.
- He explains the work in depth, teaches you shortcuts in solving problems and remembering strategies.
- I met new people.
- The class teaches specifically what will be on the compass. I also like that professor guy was willing to answer all questions even if it was repeating something he article.
- I refresh my memory from when I was in high school. They go from basics to more complex.
- I like the fact that professor Guy is always available when needed and he doesn't come off as intimidating.
- I don't like math, but what I like best is that the teacher makes it understandable and easy for me.
- Dr. Guy is a great teacher even though we are remedial class he never makes us feel unimportant.
- Teacher is very helpful and descriptive, no way you can fail exam with a teacher like this, he is awesome!
- The teacher, because I hate math. Somehow I never fell asleep in the class.

Would you or would you not recommend this instructor to a friend? Why?

- Yes I would because professor guys very helpful and a good teacher. Definitely enjoyed the class. Math and I have been archenemies since high school but now I'm able to consider befriending it all thanks to Prof. Guy.
- Yes I would because it is easy and the professor is a good explainer. Your "Don't miss more than two days" policy is too strict if the student is willing then the student shouldn't fail the class.
- As the structure to a friend.
- Yes. It is very experienced and brings a friendly attitude to the class.
- Yes. And it would be possible I will a friend to another class with this professor. He is great as a teacher I understand more than ever.
- Yes I would be very helpful.
- I would because he would help you stay on track and remember the things you once forgot. I think this class is cool and I wish he would be my future math teacher.
- Yes? Cause if you need help them do this class. More fun!
- Yes. Professor Guy is very enthusiastic which makes you want to learn.
- Yes because I feel like I learn things that I did remember and Professor Guy was a great help for me to improve on the compass exam.
- I would recommend this instructor to a friend because he's funny nice and his teaching methods are really helpful.
- Yes I would because if they are not too good and Matthews the teacher to go to.

CUNY QCC Student Evaluation of Faculty

G. Michael Guy MA 005M Fall 2009

- I would definitely. He is good at his job, funny, willing to help and also he likes his class to be on time. Wonderful teacher. You care a lot about your students and want them to achieve the best.
- Yes, to 1 million friends! I can ask any question to him and he will answer it over and over again until I get it! Mad funny!
- Yes, the way he explains things, he does something like quotes for students so they remember the steps.
