Please comment briefly on specific aspects of this instructor's teaching which in your opinion particularly deserve praise and criticism such as assignments, grading, testing, methods of instruction, enthusiasm, etc.:

Although the course material was in my opinion easy, Dr. Guy was able to make it interesting and help those in the class who did have difficulty grasping it while making class interesting for those who got it quickly. This is what a CORE class should be like!

Dr. Guy is a great guy!

enjoyed the class

Excellent teacher and teaching methods! He did a great job by using examples of things that interest students currently to help better understand the math!

GREAT PROFESSOR!!!! made learning not only fun but also as easy as possible. Would definitely look into getting him as a professor again if at all possible

Guy was a great teacher. He made class interesting and fast paced

He was awesome and made class enjoyable..a great teacher overall.

I feel that G. Michael Guy is a great teacher. I have no criticisms for him.

I really enjoy coming to class everyday. He made the topics we learned in class very interesting.

it is obvious that he enjoys teaching this subject. he taught well and made the material more understandable.

Just a damn good teacher!

Made class interesting!

Michael Guy was helpful, entertaining, and very thorough and fair in his teaching.

Mr. Guy is an outstanding math teacher. I have struggled with math my entire life and I have never had a teacher make learning math so easy to understand. His classroom teaching methods and interactive website are excellent. And, his sense of humor is almost entertaining.

My instrutor Guy explain the course very good. His commnication with the class was also clear.

My teacher was always very prepared for class. I really did enjoy the class and feel it taught me concepts that I can use in life. However I feel like there was to much down time and the given class time was not used adequately. For example he would ask us what we should do next on a problem, which were just learning, and just wait for us to pull it out of the air. One time he waisted almost 20 minutes when he could have just told us what to do next.

this was a pretty good class. mr. guy was good at making these topics interesting, when they could have been pretty boring. good teacher.
