

What did you like best about this class?

- The fact that we were given homework assignment every class. At first, I did not like because I had so much else to do. Then I began to appreciate the opportunities the assignments afforded me to become familiar with the subject matter.
- Learning the truth tables.
- Notes explain material better than text.
- The instructor always tries to make the class fun and make the material we learn interesting.
- It was organized, and lots of chances to learn the material.
- This class trains are ways of thinking and helps us consider questions more thorough and utilize information better.
- He is the best teacher for my life, his lecture is very clear, also his lecture is that I learned a lot.
- The instructor always give a clear explanations of the topic.

Would you or would you not recommend this instructor to a friend? Why?

- Surely I would.
- I would recommend this instructor because he always tries to explain things clearly and complete.
- Yes.
- I would recommend the instructor to a friend because he makes the class fun and interesting.
- Yes, because even is available outside of class time, and office hours and responds to e-mails quickly.
- Yes. It is a very interesting class that does not require very strong mathematic background to be participating.
- I would recommend this instructor to a friend because this prof knows what he is doing and will always help you.

Comments:

- it was a pleasant semester! 😊
- The blog is annoying.
- Good professor, hard and exhaustive material, but he tried to make it learnable.
- For this class, patience is rewarding. As the class going on more and more valuable I found it to become.
- A very good throws a very knowledgeable guy.
